

Introduce yourself and tell us why you chose this course.

I am Sharon Kuruvilla pursuing for B.C.A right from the childhood I had a passion for computer and I started to learn its basics step by step. Whenever there was a fault in my computer I used to mend it myself even my friends consulted me When I got acquainted, with Laptop I could solve out most of its problems and at times of emergency when my friends got stuck with their Laptop I came to their help.

Upto XI standard I had my schooling at San Thome Academy a CBSE Institute. Then I joined BCM an M.P board Institute for my XII class and due to covid pandemic our batch did not have a Board examination.

Since data science is a blend of mathematics, business acumen, tools, algorithms and machine learning techniques and it will help in finding out the hidden insights or patterns from raw data. This will be of major use in the formation of big business decisions As I am interested in Algo trading and have passion for machine learning I opted for this course
